DETAILED ACTION

1. This action is in response to application, filed on November 12, 2003 has been considered but are deemed moot because of Restrictions Request below.
2. Claims 1-57 are pending.

Election/Restrictions

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even through the requirement be traversed (37 CFR 1.143). Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-38, drawn to method, system and computer readable medium for executing ERM software for managing internal resources of a company/business in an ERM system, selectively authorizing users associated with the company/business based on grouping designations of the users to access internal resource data about the company/business via the ERM software and an ERM database, and managing, distributing, tracking, organizing, analyzing, and storing internal resource data via the ERM software, which is resource management, classified in class 705, subclass 8.

- II. Claims 39-45, drawn to system, for managing internal resources of a company/business, the ERM software, and being configured in the form of first ERM software, second ERM software, third ERM software, fourth ERM software, and fifth ERM software, which is managing software component, classified in class 717, subclass 120.
- III. Claims 46-57, drawn for database including an EVENT TABLE, an EVENT TYPE TABLE, a VENUE TABLE, a RESTAURANTS TABLE, a LOCAL ATTRACTIONS TABLE, a SCORES/HIGHLIGHTS TABLE, and DIRECTIONS TABLES, which database structure, classified in class 707, subclass 100.

4. The inventions are distinct, each from the other because of the following reasons.

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instance case, invention I can be used for executing ERM software for managing internal resources of a company/business in an ERM system, selectively authorizing users associated with the company/business based on grouping designations of the users to access internal resource data about the company/business via the ERM software and an ERM database, and managing, distributing, tracking, organizing, analyzing, and storing internal resource data via the ERM software, which is resource management. Invention II can be used for managing internal resources of a company/business, the ERM software, and being configured in

Art Unit: 2166

the form of first ERM software, second ERM software, third ERM software, fourth ERM software, and fifth ERM software, which is managing software component. Invention III can be used for database including an EVENT TABLE, an EVENT TYPE TABLE, a VENUE TABLE, a RESTAURANTS TABLE, a LOCAL ATTRACTIONS TABLE, a SCORES/HIGHLIGHTS TABLE, and DIRECTIONS TABLES, which database structure. See MPEP 806.05(d).

5. Because these inventions are distinct for reasons given above and have acquired separate status in the art as shown their different classification, restriction for examination purpose as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Group I and II are not required for Group III each other, restriction for examination purposes as indicated is proper.

7. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

8. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even through the requirement be traversed (37 CFR 1.143).

9. Applicants is reminded that upon the cancellation of claims to be non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (i).
